

RADIX CLOUD BACKUP

Securing your information has never been easier or more affordable.

Protecting your critical data has never been easier. Our automated cloud backup and recovery services will help you restore your information faster and eliminate time spent managing data loss.

COVERS ALL YOUR DATA TYPES

01

EXCHANGE, SQL, AND SYSTEM STATE

Enable backup and recovery of exchange, SQL data, and system state.

FILES AND FOLDERS

Recover from the accidental deletion of any document, spreadsheet, or folder.

VMWARE & HYPERV IMAGES

Restore full VM images from the cloud back to your host or our site.

02

IT'S EASIER TO USE THAN EVER

HANDS OFF

Imagetek, Inc's expert support staff will not only setup your backups, but will **monitor** and **maintain** them to ensure backups are being completed as scheduled. If there are any issues, we typically resolve them before you even knew they happened.

AUTOMATIC BACKUPS

We can schedule your backups to happen whenever you want and as frequently as you need them.

MANAGE LOCAL AND OFFSITE BACKUPS

Our flexible solution allows for any of your data to be stored online and/or saved to local storage - eliminating the need for a separate local-only backup solution.

MAXIMUM DATA SECURITY

MILITARY-GRADE ENCRYPTION

Files are secured using 256-bit AES encryption and a private encryption key. SSL technology is used in data transmission, ensuring your data is protected both onsite and over the Internet.

OFF-SITE STORAGE

Data is stored in two, SSAE 16 Type II compliant datacenters with redundant storage and biometric security.

ROBUST, FLEXIBLE ARCHIVING

Data-archiving settings allows historical data to be saved as long as you need and meet applicable compliance standards.

MADE FOR ENTERPRISE - BUSINESS GRADE PRODUCTS

04

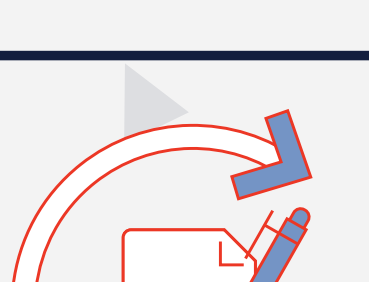

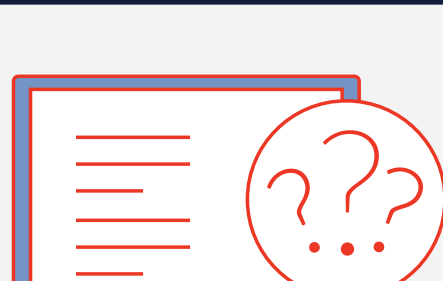

MULTIPLE DEVICE SUPPORT

Our solutions let you back up a single computer or server, multiple computers, laptops or even multiple offices.

REPORTING AND NOTIFICATIONS

We can send you notifications that your backups have completed successfully, including detailed statistics.

MULTIPLE REVISIONS

Store an unlimited number of versions of the same file so there's no fear of accidental deletion or overwriting a file.

RADIX CLOUD BACKUP

Radix Cloud Backup is an extension of Radix, our premiere enterprise content management solution. All of your files will be available, safe, secure, and stored - giving you piece of mind at an affordable price.
